DISCOVER A DIFFERENT ISLAND

Just a short trip from the Swedish mainland, but more exotic than you'd think. Thanks to the unique landscape, the excellent sandy beaches and the constant presence of the sea. As well as the exquisite light and the many hours of sunlight on the island. And there's more - the rich cultural heritage and history of the island are visible and felt everywhere you go. The entertainment scene and the outdoor cafés contribute to a continental feel.

Most people associate Gotland with holidays, sun and water fun. We have fabulous waterfronts, and Gotland always comes near the top in Sweden for hours of sunshine in summer. The island has a lot more than that to offer, but it's undeniable that the seashore and water are key elements of many a summer holiday. And no one need be disappointed - everyone can find a favourite spot somewhere along the 800 km of Gotland's shoreline.
